Consultant Paediatrician - Specialist in Respiratory Paediatrics

Associate Professor of Paediatrics – St George’s University of London

Medical School University of Nicosia

Dr Spyros Pipis graduated from Manchester University Medical School with Honours in 1989. He completed his Paediatric training in 1994 becoming a Member of the Royal College of Physicians. He embarked on Paediatric Respiratory research with a main interest in infant lung function and pre-school wheeze at the North West Lung Centre, University of Manchester. He obtained his certificate of completion of specialist training (CCST) and was appointed as a Consultant Paediatrician in 1997 at South Manchester University Hospital and became a Fellow of the Royal College of Paediatrics and Child Health.

In 1998 he moved to Cyprus and completed his research which led to a Doctorate in Medicine from the University of Manchester in 2004. He also performed further Research in Cyprus.

His research work has been published in peer reviewed journals. He has presented his work in major European/International conferences.

He has been involved in medical education as an adjunct lecturer and a Faculty member with the Cyprus International Institute for the Environment and Public Health in association with Harvard School of Public Health. Currently he is an Associate Professor of Paediatrics at St George’s Medical School programme at the University of Nicosia. He regularly gives Lectures on Respiratory Paediatrics both in Cyprus and in Europe.

He is a practising consultant paediatrician – specialising in respiratory paediatrics at Aretaeio private hospital in Nicosia, Cyprus and also at Paediatric @ Prodromou Clinic.

Aretaeio Paediatric Department

Dr. Spyros Pipis is the Head of the Paediatric Department at Aretaeio Hospital.

He runs a very busy general Paediatric and Respiratory Paediatric clinic.

The Paediatric Department is able to provide in patient care for the majority of paediatric, and neonatal cases. If there is a need for high dependency or Intensive care patients are transferred to the Intensive care unit at Makarios Paediatric Hospital (MMC).

Continues 24 hr paediatric cover (with on call Rota with 4 experienced Paediatricians) is in operation to provide ongoing Paediatric Medical care that is always supervised by Dr. Spyros Pipis.
